

Timothy Valderrama

Lead Product Designer

✉ valderramadesign@gmail.com 🌐 tim-ai-design.com 📍 San Mateo, CA

Lead Product Designer with 9+ years of experience simplifying complex digital products and turning friction into business growth. My certifications in AI-assisted design workflows and Product strategy for designing AI experiences helps me turn stakeholder requirements into user-centered concepts that accelerate alignment, sharpen product decisions, and drive measurable business outcomes.

Experience

Valderrama Design

Principal Product Designer, Freelance
February 2026 – Current

- Returned to full professional capacity in February 2026 after surgery and rehabilitation for a sports injury, using the transition period to deepen expertise in AI-assisted product design workflows across strategy, interface design, prototyping, and app development.
- Designed and developed an AI-powered preschool activity reporting app for Sunshine Little House of Learning, automating real-time parent updates and end-of-day summaries while saving the head teacher approximately 2 hours per day.

Meta FinTech

Product Designer V, Staff Product Designer, Design Consultant
December 2024 – August 2025

- Led design strategy to reduce checkout payment friction through credential sharing and autopay, using Metamate AI for research synthesis, product framing, and opportunity analysis; increased iRev by 6.3% and boosted credential coverage by 36%.
- Designed solutions to reduce ad billing credit card costs by promoting Monthly Invoicing and optimizing the AI- and automation-driven application flow; increased conversion by 41% and delivered an estimated 20% annual savings in credit card fees.

PayPal

Lead Product Designer
October 2016 – April 2024

- Modernized PayPal's installment products, a top-priority leadership initiative, by migrating experiences to UI 4.0 and the Checkout Product System; used Figma, ChatGPT, and Claude to accelerate research synthesis, UX writing, flow critique, and product storytelling, increasing Pay in 4 conversion by 208% and growing monthly TPV to \$598M.
- Led design strategy and end-to-end execution across German installment products, translating complex regulatory, customer, and business requirements into scalable product experiences that generated \$181M in monthly TPV for PayPal Monthly Installments and \$529M for Pay in 30 Days.

Cisco Systems

Senior UX Designer, Design Consultant
February 2015 – September 2016

- Led end-to-end design for Cisco's premier mobile app, modernizing the experience with updated accessibility and UI standards and increasing user comprehension by 43%.
- Partnered in developing a scalable UI component library and UX standards that standardized and improved Cisco's intranet navigation.

Education

Nielsen Norman Group

Master Certificate, Human Computer Interaction, AI assisted design and product strategy for AI experiences

Academy of Art University

Bachelor of Fine Arts, Graphic Design

De La Salle University

Bachelor of Arts and Science, Business Marketing

Skills

Product design leadership

Product vision, design strategy, platform-scale systems, complex problem framing, prioritization, stakeholder influence, executive storytelling, mentorship, and cross-functional leadership.

AI-assisted design workflow

Research synthesis and opportunity framing, UX writing with ChatGPT; divergent ideation and edge-case analysis with Figma AI tools or Google Stitch; rapid prototyping and structured critique, design-to-code MVPs using Claude, Replit, or Metamate AI.

UX craft

Figma, mobile and web systems thinking, interaction design, visual design, design systems, component libraries, accessibility, user research, insight synthesis, checkout experiences, FinTech flows, billing systems, credit products, and conversion optimization.
