🌐 tim-ai-design.com

📍 San Mateo, CA

Lead Product Designer with 9+ years simplifying complex cross-product FinTech systems, including identity and access, account-linked credential sharing, onboarding, and checkout journeys. Turns business, security, and technical constraints into clear customer experiences using Figma, prototypes, design systems, and research, with cross-functional delivery from concept through implementation.

Experience

Valderrama Design

Principal Product Designer · Freelance

Feb 2026 - Present

- Returned to full professional capacity after sports-injury rehabilitation while deepening AI-assisted product design workflows across strategy, interface design, prototyping, and app development.
- Designed and developed an AI-powered preschool activity reporting app, automating real-time parent updates and end-of-day summaries while saving the head teacher 480 hours annually.

Meta FinTech

Product Designer V (Staff Product Designer) · Design Consultant

Dec 2024 - Aug 2025

- Led end-to-end strategy for account-linked credential sharing and security-confirmation flows spanning ad accounts, Meta Pay, and merchant checkout; increased iRev by 6.3% and credential coverage by 36%.
- Simplified the AI- and automation-driven onboarding flow for Monthly Invoicing, increasing conversion from 39% to 97% and reducing annual credit-card fees by 7.5%.
- Partnered closely with Product, Engineering, Data, Operations, Research, and business teams to align complex FinTech requirements and move designs toward delivery.

PayPal

Lead Product Designer · FTE

Oct 2016 - Apr 2024

- Led end-to-end design for identity, permissions, authentication, and authorization in installment applications across checkout and servicing; migrated to UI 4.0 and the Checkout Product System, lifting conversion to 208% of baseline and monthly Pay in 4 TPV by 67%.
- Led design strategy through implementation across German products, increasing monthly TPV by 14.92% for PayPal Monthly Installments and 48.78% for Pay in 30 Days.
- Mentored senior designers and introduced scalable, data-informed patterns and process improvements that raised team-wide design quality and maturity.

Cisco Systems

Senior UX Designer · Design Consultant

Feb 2015 - Sep 2016

- Drove end-to-end design for Cisco's premier mobile app, applying updated accessibility and UI standards and increasing user comprehension by 43%.
- Partnered in developing a scalable UI component library and UX standards that standardized and improved Cisco's intranet navigation.

Education

Nielsen Norman Group

Master Certificate, Human Computer Interaction; AI-assisted design and product strategy for AI experiences

Academy of Art University

Bachelor of Fine Arts, Graphic Design

De La Salle University

Bachelor of Arts and Science, Business Marketing

Skills

Systems & product leadership

Platform and cross-product strategy, complex workflow simplification, systems thinking, prioritization, stakeholder alignment, executive storytelling, cross-functional leadership, and concept-to-implementation delivery.

Account & FinTech experiences

Identity, permissions, authentication, authorization, account-linked credential sharing, security confirmation, onboarding, checkout, servicing, billing systems, credit products, payments, and conversion optimization.

Design craft & AI workflows

Figma, prototyping, interaction and visual design, design systems, component libraries, accessibility, research synthesis, UX writing, Figma AI, ChatGPT, Claude, Google Stitch, Replit, and Metamate AI.
